INMATE INCIDENTS

NUMBER OF INCIDENTS

In 2005 there were 13,686 inmate incidents in the California Department of Corrections and Rehabilitation's institutions and camps. The number of incidents increased by 1,396 from 12,290 in 2004 to 13,686 in 2005. The largest increase was with assault and battery without weapon incidents. Physical assaults without weapon on an inmate seemed to present the largest

increase for incidents. There was a large increase in incidents from 6,868 in 1996 to 9,784 in 1997. According to Division of Adult Institutions, the increase in incidents is due to new reporting requirements that began in 1997. In 2005, the increase in the number of incidents could possibly be related to the increase in the institutions and camps population.

RATE OF INCIDENTS

The rate of incidents per 100 average daily institution population increased from 7.9 in 2004 to 8.7 in 2005.
